The Attorney General called and advised that Governor Nelson Rockefeller, New York, had called the White House a few minutes ago and said in connection with the Attica Prison uprising, Seale and Newton had advised the prison authorities that if they went in with the police as they have done, this was going to lead to an uprising in all of the prison establishments and among the Black Panthers; and the Attorney General said they have advised the prison people and they will be covered, and he did not know but what it might be well to alert my people and whatever law enforcement agencies I think necessary. I told the Attorney General I will do it at once.

Mr. Felt has been advised and instructed to immediately prepare a confidential wire to all offices to give the information to law enforcement authorities within their divisions.

Honorable Egil Krogh, Deputy Assistant to the President for Domestic Affairs at the White House, called. He said they had just received a call from Governor Nelson Rockefeller of New York, in the wake of the Attica Prison incident, and the Governor mentioned that his office had been receiving some bomb threats or something about the placement of bombs; that the Governor was a little vague but did mention bomb threats and asked that the FBI give him and his police unit, which Mr. Krogh assumed was a special detail of the State Police, very fast transmittal of any information developed by the FBI regarding any bomb threats and this would be pursuant to the President's request as the Governor is in a tight situation and made his stand and should be supported. I commented I thought he did a courageous thing.

Mr. Krogh said they were interested now in providing him quick support and back-up and it would help if we could get a fast response to him from the Bureau if any information is uncovered. I told Mr. Krogh I would see that orders are issued right away as the Special Agent in Charge at Albany can assemble and obtain from the Buffalo and New York City Division any information they may have of any bomb threats in New York State. Mr. Krogh expressed his appreciation.

Mr. Felt has been instructed to handle this right away.

I called Assistant Attorney General Will R. Wilson of the Criminal Division. I told him I thought he might be interested in this note which I just received from my office in Sacramento and this, of course, was confidential. I said the Assistant Special Agent in Charge there was talking with Strike Force Attorney James Ritchey at San Francisco and Ritchey told him any arrests or raids resulting from gambling cases under Title 3 would be held in abeyance until the end of 1971, and Ritchey said he learned this from the Department who wanted to make a big splash for political purposes. Mr. Wilson commented this shows you what happens and we have to look at this in light of everything and he was glad to get this information.

I told Mr. Wilson that Mr. Cleveland and Mr. Felt would be in touch with him probably sometime the first part of the week.

RE: CLERICAL TOUR LEADER TRAINING

On October 26, 1971, another clerical tour leader training class will be formed for a three-week period. The names of the young men assigned to your Division being recommended for this course of instruction should be submitted by appropriate memorandum to be received by the Crime Records Division no later than October 15, 1971.

Please afford this matter your personal attention bearing in mind that all candidates being recommended must possess, at least, the minimum physical requirements for the Special Agent position. FBI tours are one of the keystones of the Bureau's public relations program, and an adequate staff of trained representatives must be available at all times in order to meet our heavy commitments.

RE: FIRE PREVENTION WEEK  
FIRE DRILL - JUSTICE AND 9TH AND D BUILDINGS  
OCTOBER 5, 1971 - 9:40 A.M.

A fire drill for Bureau employees in the Justice and 9th and D Buildings will be conducted beginning at 9:40 a.m., Tuesday, October 5, 1971. The alarm will sound at that time and employees should secure their space and then walk to the nearest exit. Elevators will be used only for those physically unable to use stairs. Another alarm will be sounded which will signal persons outside to re-enter the building.

Skeleton crews shall be maintained by each Division to handle emergency matters during the fire drill.

RE: INITIALING OF MAIL

I have recently noted a highly unfavorable trend in that supervisory personnel when initialing memoranda, letters, etc., are not clearly and legibly setting forth their initials. Make certain in the future that any mail sent through bears recognizable initials which will allow me to readily and quickly identify the individuals initialing the correspondence.

MEMORANDUM FOR MR. TOLSON

Today I saw Inspector Thomas W. Leavitt of the Inspection Division, who is under orders of transfer to Columbia as Special Agent in Charge. Mr. Leavitt [REDACTED]

I discussed with him generally the operations of a field office and the necessity for a firm but fair administration.

I noted that the Columbia Office had one classification of case which exceeded 7% delinquency and hoped this condition would be corrected

I also noted in August the Agents of the Columbia Office had closed 10.8 cases per agent while the field average was 9.6, which was good.

I noted for the first two months of fiscal year 1972, when compared with the same period of the previous fiscal year, the Columbia Office had decreased its accomplishments in Autos Recovered by 35% and this should be corrected.

I commented on the fact that the agents of the Columbia Office in August spent 5.6% of their time in the office while the field average was 11.0%, which is good and which should be continued.

I stressed to Mr. Leavitt the value of informant coverage in all fields of our work [REDACTED] and the necessity for intensification of the development of top level informants.

I noted that the agents of the Columbia Office in August averaged 2 hours and 39 minutes per day overtime and, while this was excessive, I knew of no way to reduce it in view of the volume of work and the shortage of personnel. I stated I wanted to emphasize the fact that I did not want any unnecessary overtime and whatever overtime was performed must be equitably shared by all or fringe benefits should be rescinded in those cases wherein the agents are not able to equitably share the overtime.

Memorandum for Mr. Tolson

September 28, 1971

I noted that since January 1, 1971, the Columbia Office has recruited 12 Special Agents, has 5 appointments outstanding for future classes, and supplied 47 clerical employees. I stressed to Mr. Leavitt that this program should be given continuous attention.

I discussed with Mr. Leavitt the Criminal Intelligence Program noting that criminal activities in the territory covered by the Columbia Office consist chiefly of gambling, bootlegging and prostitution and that the Columbia Office is conducting 47 gambling-type investigations chiefly in Interstate Transportation in Aid of Racketeering and Illegal Gambling Business classifications. I noted that the Columbia Office on August 7, 1971, obtained 11 convictions in an Illegal Gambling Business case, which was a substantial accomplishment as it was the first conviction under the 1971 Illegal Gambling Statute based on the theory that bookmakers located in various cities are in effect operating an illegal gambling enterprise and not just small separate bookmaking businesses.

I spoke to Mr. Leavitt about the fact that I noted the Columbia Office has 4 bank robberies, 2 bank burglaries and 3 bank larcenies pending unsolved and every effort should be made to correct this.

I called SAC Charles W. Bates in Chicago and told him, with reference to our talk some weeks ago, I have sent out a letter this morning designating him Assistant Director in charge of the General Investigative Division. I said I would like to have him get here just as soon as he can, in fact he could come and go back and bring on his family later. He said he would do so. I said I would like to have him here Monday morning. He said he will be here then.

I advised Mr. Bates that I have removed Mr. William C. Sullivan and dropped him from the rolls for insolence and insubordination; that I have named Mr. Alex Rosen as the new Assistant to the Director; and that in Mr. Rosen's absence, he will act as Assistant to the Director.

Mr. Bates expressed his appreciation and said he will be in Monday morning. I told him he can go back for his family anytime; that he should get the lines going here; that he has a good #1 Man, Mr. Rex I. Shroder. Mr. Bates said yes, he knows Mr. Shroder. I said Mr. Shroder's work has been outstanding; that he was on the Mackle case and did a very fine job; and that I recently made him an inspector.

I told Mr. Bates, when he comes in Monday, we can discuss the problems he will face and how I want matters handled.

I advised Mr. Bates that I named Mr. Roy K. Moore, the SAC at Jackson, as SAC at Chicago. I stated Mr. Moore has done a very fine job in Philadelphia on a special. I said I don't know how soon Mr. Moore can get out to Chicago because on his way to the plane a couple of weeks ago he fell and has a dislocated disc; that it will probably be the middle of October before he can get to Chicago; but that won't affect Chicago because Chicago has a good #1 Man; and for Mr. Bates to be here Monday.

Mr. Bates said he will; that he appreciates it; and that he is working for me and will do everything the way I want it done. I said that is what I want - loyalty and dedication. I said I didn't get that from Sullivan. Mr. Bates said he knew I didn't. I said he (Sullivan) wouldn't retire

voluntarily so I had to take action yesterday to remove him. I stated that I don't want yes men but I want men to give me their views and, when I make a final decision, I want them to carry them out, Mr. Bates said this is how it should be. I said there has to be somebody at the top to make those decisions; that the President and the Attorney General have left me here; and that I intend to continue to make them.

Former Justice of the Supreme Court Arthur Goldber  
He said he called because this morning he was called by Senator  
(Hubert) Humphrey, through an associate of his, and then personally,  
saying that a letter had been sent to him dated April 16th and  
the letter purports to be on his, Goldberg's, stationery as United  
States Ambassador, addressed to the Israeli Ambassador by his first  
name which would indicate that "we" have a kind of conspiracy along  
with Dr. Henry Kissinger to serve their interests and not the  
United States Government's and it is a scandalous letter. I asked  
if any name were signed and Mr. Goldberg said it was signed with  
his name. I commented that it is a forgery. Mr. Goldberg said  
it is a complete forgery and he asked the Senator whether it had a  
letter of transmittal and the Senator said it did. I told Mr. Goldberg  
I was going to suggest we pick it up if the Senator had no objection  
to his turning it over.

Mr. Goldberg said he did not and that he, Goldberg, had  
written a letter as he thought it was appropriate to call me first  
and he called the Attorney General, who was unavailable. I  
commented the Attorney General is out of town today. Mr. Goldberg  
continued that he called the Secretary of State, who was in con-  
ference, and called Dr. Kissinger and then wrote an official letter  
to the Attorney General, and he was going to send me a copy, saying  
he requested an official investigation because it relates to the  
conduct of official business and the interests of our country.  
He said it looks like an American Ambassador conniving with the  
Israeli Ambassador and Dr. Kissinger in the interests of another  
country. I commented that it sounds like an anti-Semitic person.

Mr. Goldberg said that what Humphrey reports is that he  
wrote back to this gentleman and his reply was returned to writer  
as no such number, but he, Goldberg, had no alternative, he thought,  
because it started to get around. Mr. Goldberg said that Tom Braden,  
the columnist, had called and he, Goldberg, thought he had no alterna-  
tive but to have a press conference, release the letter, and release  
his request for an investigation as he thought he could not, un-  
pleasant as it was, not do this.

Memorandum for Messrs. Tolson, Felt, Rosen, Bishop      October 1, 1971

I asked Mr. Goldberg if we could get hold of the letter. He said it is not an original letter, some kind of photostat or something. I asked him where the original was and he said he had no idea. I asked if it were sent to the Senator, and Mr. Goldberg said he did not know how it was manufactured. I commented it could be done. Mr. Goldberg said he did have some correspondence which is unclassified; that he dictated to his secretary during the same month of 1968 and the typewriter is completely different.

I said we would pick it up and asked where and Mr. Goldberg said at his office in Washington, 1101 17th Street, 11th floor, and he would be glad to hand over whatever he has and be of assistance. I told him I would have someone call on him and get the information and whatever he could furnish and start an official investigation. Mr. Goldberg said he would be delighted to cooperate in any way possible. I told him we would give it top priority. Mr. Goldberg said he wanted whoever did it found and sent to jail and I told him we would do our best to see he is taken out of circulation.

Mr. Goldberg thanked me and expressed his appreciation.

Mr. Rosen was advised of the above and that Washington Field Office should contact Mr. Goldberg at once.

It is desired that you make available to Mr. Bishop no later than November 15, 1971, a list, in alphabetical order, of Bureau contacts to whom you feel the staff Christmas message should be sent this year. Even though particular individuals have been suggested by you in prior years, their names should again be included on your list this year if you believe they should receive a card. Complete and correct names, titles, addresses, zip codes, and pertinent identifying data should be furnished. Please be selective and confine your lists to genuine Bureau contacts who are in a position to be of service in the future.

I returned an earlier call from Mr. Norman A. Carlson, Director, Federal Bureau of Prisons. Mr. Carlson said he had called me at Dick Kleindienst's suggestion. He related that they are scheduled to have some demonstrations this Saturday at six or seven of their institutions and Dick (Kleindienst) suggested he tie in with me as much as he could in terms of beefing up their staff. He said they are going to have United States Marshals in addition to their own staff and would like to have local agents just to be on hand in case anything should happen.

I asked if he had the names of the institutions. He answered yes, that he will get a memo over to me this afternoon. I said we would advise our local offices in those areas and would help first by furnishing any intelligence we get on that and, secondly, will have our men there.

I returned an earlier call from Mr. William M. Magruder at the White House. Mr. Magruder stated he was the former Dir of the supersonic transport program and the reason he was calling me is that Mr. Nixon has assigned him as a special consultant to focus - acting as a sort of program manager - to focus technological resources, private and federal, on new technological opportunities and on economic opportunities - he should say technological needs - covering health, education, law enforcement, pollution control, transportation, natural resources.

He stated he had already called Admiral Rickover and will be trying to get hold of Mr. Edward Teller. He said he has never met or talked with me and I remarked that I had heard of him. He went on that he is looking for people who look ahead. He said he has spent six weeks going through programs but he has found, when you go to secretaries, under secretaries, assistant secretaries to focus on urgent national needs, what comes out is a study for a short-range improvement.

He stated that, when he told the President of his agony in getting people to lift their eyes, the President said there is one man in Government who thinks ahead - only one man and that is Mr. Hoover. I said that is very nice, and he said well, it came from the President.

He stated it is like Kennedy going to the moon; that he had to get to the moon because Sputnik was up there, and he did.

He stated he is leaving town tomorrow but sometime next week, if I think it is appropriate and I think it is a way to do it, he would like to know how I think he can get people's minds up above the horizon.

I told him I will give it very intensive study. I said it is a terrific project and so many people are looking to the immediate future, the horizons are narrow for a lot of people.

I said I think Admiral Rickover is a wonderful selection and Dr. Teller is also. I mentioned that I had served with Dr. Teller on the Hertz Foundation. I said I think men like that would have a tremendous

HEREIN IS UNCLASSIFIED

DATE 6/19/82 BY SP-1 GSK/BK

opportunity to make contributions as they have shown in their own work. I said I know people never thought Admiral Rickover would ever be able to accomplish the things he has. Mr. Magruder agreed and remarked upon Rickover's coming out last week for aircraft carriers, showing that he is flexible.

I discussed the great impact modern transportation has had on espionage; that an agent of the Russian Government can be in Paris this afternoon and in New York tomorrow morning and in Mexico the next day. I said we have got to make radical and drastic changes if we are to continue. Mr. Magruder said we have got to find people who can help us to be bold, imaginative and interested.

Mr. Magruder said one of the nice things about the SST was that it crystalized people into thinking either or - to where people really have talked about, thought about and seen the need for improved transportation, law enforcement, et cetera. I said it awakened a lot of people to things they never had thought about before; think of the day when we traveled in simple motor planes and look at it now - the changes that have taken place in one lifetime. I said we have to look to the future in pollution, ecology; plan ahead; it may sound impractical at first but at least we have to explore it.

Mr. Magruder said, if it meets with my schedule, he would like to come over here to spend thirty or forty-five minutes and brief me on what it is they are trying to do and seek my counsel.

I said I would be very glad to see him and asked what day he had in mind. He said Tuesday afternoon, the fifth. I checked and told him I am open on the afternoon of the fifth. Mr. Magruder asked how about two o'clock. and I said two o'clock would be fine.

Very truly yours.

October 4, 1971 *Plan*MEMORANDUM FOR MR. TOLSON

Today I saw Special Agent Richard E. Long of the General Investigative Division, who is under orders of transfer to Jacksonville as Assistant Special Agent in Charge. Mr. Long [REDACTED] 37

I discussed with Mr. Long generally the operations of a field office and the necessity for a firm but fair administration. *State*

I noted that the Jacksonville Office had no classification of cases in excess of 7% delinquency, which was good and should be continued.

I also noted that in August the Jacksonville Office Agents had closed 10.7 cases per agent while the field average was 9.6 cases per agent, and this should be continued.

I also noted that in the first two months of fiscal year 1972, when compared with the same period of the previous fiscal year, the Jacksonville Office had decreased its accomplishments in Convictions by 29%; in Fines, Savings and Recoveries by 71%; and in Autos Recovered by 26%, and this should be corrected.

I commented on the fact that the agents of the Jacksonville Office in August spent 6.1% of their time in the office while the field average was 11%, which is good and which should be continued.

I stressed to Mr. Long the value of informant coverage in all fields of our work. [REDACTED] b

and the necessity for intensification of the development of top level informants. b

I noted that the agents of the Jacksonville Office in August averaged 2 hours and 28 minutes per day overtime, in July 2 hours and 29 minutes, and in June 2 hours and 31 minutes and, while this was excessive, I knew of no way to reduce it in view of the volume of work and the shortage of personnel.

I stated I wanted to emphasize the fact that I did not want any unnecessary overtime and whatever overtime was performed must be equitably shared by all or fringe benefits should be rescinded in those cases wherein the agents are not able to equitably share the overtime.

I noted that since January 1, 1971, the Jacksonville Office had recruited 17 Special Agents, has one appointment outstanding, and supplies 41 clerical employees. I stressed to Mr. Long that this program should be given continuous attention.

I discussed with Mr. Long the Criminal Intelligence Program, noting that [REDACTED] in the Jacksonville area. I noted that during fiscal year 1970, the Jacksonville Division obtained two convictions in the antigambling field and three convictions during fiscal year 1971, and although Jacksonville has recorded no convictions during the first two months of fiscal year 1972, there are two prosecutions under the antigambling classifications pending in this Division at the present time. I stressed to Mr. Long that every effort should be made to intensify our top echelon coverage. -67d

I spoke to Mr. Long about the fact that I noted the Jacksonville Office has 2 bank robberies, 2 bank burglaries and 1 bank larceny pending unsolved and every effort should be made to correct this.

I discussed with Mr. Kelly generally the operations of a field office and the necessity for a firm but fair administration.

I noted that the Jackson Office had one classification of cases which exceeded 7% delinquency and this should be looked into.

I noted that in August the Jackson Office agents had closed 8.8 cases per agent while the field average was 9.6, and this should be corrected.

I also noted that in the first two months of fiscal year 1972, when compared with the same period of the previous fiscal year, the Jackson Office had decreased its accomplishments in Autos Recovered by 19%, and this should be corrected.

I commented on the fact that the agents of the Jackson Office in August spent 7.4% of their time in the office while the field average was 11.0% which is good and which should be continued. I also pointed out that the Security agents spent 12.0% of their time in the office in August, and this should be reduced.

I noted that the Phoenix Office had no classification of cases which exceeded 7% delinquency and that this was good.

I noted that in August the Phoenix Office Agents had closed 14.3 cases per agent while the field average was 9.6 and this was a healthy trend.

I commented on the fact that the Agents of the Phoenix Office in August spent 6.8% of their time in the office while the field average was 11%, which is good and which should be continued. I also pointed out that the Accounting Agents spent 17.6% of their time in the office in August, and this should be reduced.

Honorable H. R. Haldeman, Assistant to the President, c: *max*  
He said that as I may know, the Washington Post is cranking up a story on an FBI investigation of CBS (Columbia Broadcasting System) correspondent Daniel Schorr and apparently the Bureau has confirmed to Ken Clawson, a reporter for the Washington Post, that such an investigation was ordered by the White House. I commented I would doubt that because my orders are to not give Clawson the time of day. Mr. Haldeman said he would be surprised if we had, but Clawson claims he does have this confirmation from the Bureau and in any event he is going apparently with the story that the White House is investigating this reporter. Mr. Haldeman said that I may recall that there was a request for a check on him back in the middle of August and obviously the White House would have no useful purpose in getting any more publicity on it than is necessary so what he wanted to do was be sure we did not supply Clawson or any of the rest of the press with anything.

I told Mr. Haldeman my standing orders are not to give the time of day to him and I will check on it right away. Mr. Haldeman said that Ron Ziegler, Press Secretary, is concerned that they are going to try to create a repression of newsmen type of thing. I said that is the usual line. Mr. Haldeman said he thought they would slough it off over there and if they ask any questions, say they would not have anything to say as obviously information is sought on individuals at various times for various reasons such as appointments, routine checks, et cetera, and not have anything more to say and he assumes that is the position the Bureau would take. I said we will not have anything to say and I would check and let him know, as it may have been confirmed by the Public Information Office of the Department of Justice.

4:28 PM

I tried to reach Mr. Haldeman at the White House and he was out of the office, so his assistant, Mr. Higby, called and said he was with Mr. Haldeman at the time he had first called me. I told Mr. Higby I would give the information to him.

Memorandum for Messrs. Tolson, Felt, Rosen, Bishop, Cleveland

I told Mr. Higby that this afternoon, Clawson, whom we consider to be no good, contacted Mr. Bishop, one of the Assistant Directors who is in charge of public relations, and stated he wished to be advised if the FBI had conducted an investigation of Daniel Schorr, a TV news employee of CBS, at the request of the White House sometime during August, 1971. Mr. Bishop told Clawson it would not be possible for the FBI to make any comment on this inquiry whatsoever and at this point, Clawson advised Bishop the FBI may not realize it but the FBI had been used by someone at the White House in connection with the investigation of Schorr. Clawson stated he had talked to a number of people who had been contacted by the FBI in August, 1971, in connection with an investigation of Schorr and these people informed him the FBI was investigating Schorr because he was being considered for a high Government position. Clawson stated two of the people that told him this were Dr. Frank Stanton, President of CBS, and Richard Salant, President of CBS News Division. Clawson stated he had been informed by a source in the White House that Schorr was never being considered for appointment to a Government position and that the individual who made the request of the FBI was aware of this but he had asked the FBI to conduct an investigation allegedly in connection with possible employment but actually for the purpose of getting background information on Schorr in an expedite manner. I said Mr. Bishop advised Clawson the FBI would have no comment to make.

I continued that a review of the files reveals that we were asked on August 19, 1971, to make an investigation of Schorr and we sent a wire to the field accordingly. I said we interviewed officials of CBS at New York and they expressed great surprise that Schorr was under investigation and requested it be discontinued as Schorr did not know what position he was being considered for. I said we brought this to his, Higby's, attention at San Clemente and he ordered that we discontinue the investigation unless we heard something further. Mr. Higby said that was right and they have not done anything since then. I said Clawson is a "second story" worker. I said for some time my orders have been that he is not to be given the time of day on anything.

Mr. Higby asked if there was any indication who at the White House confirmed this. I said this memorandum had just come into me after

Mr. Higby thanked me and said he would get this information to Mr. Haldeman as soon as he returned and if Mr. Haldeman had any more questions, he would get back to me.

Honorable H. R. Haldeman, Assistant to the President, :  
 He said that as I probably knew. Senator Ervin said his Subcommittee was going to investigate the (Daniel) Schorr intimidation business. I said I had not seen that, but I saw that Congressman Celler had written the Attorney General. Mr. Haldeman read the item which indicated that Senator Ervin had instructed the staff to invite Schorr and the two White House aides to testify and he assumed they would come and before the FBI investigates, the Government should find out if the person would take the position.

Mr. Haldeman continued that the President is going to have a press conference and if he is asked the question, he was going to reply along the following lines: That he understands Mr. Schorr was being considered for a public affairs position in the area of environmental matters and there was a routine FBI investigation, but there was nothing detrimental; that the position was not offered; that no one can object to an FBI check being given them the same as to anyone else and the only objection seems to be that he was not asked beforehand if he were interested and that objection, to the President, makes sense and accordingly he has ordered that whenever anyone is being considered for a Government position, he be informed beforehand and if he is not interested, consideration would be dropped; that there was no intimidation nor will there be and to make sure, he has directed this additional safeguard be instituted.

I told Mr. Haldeman I thought that was a good statement. Mr. Haldeman says it does put the burden that before any check is run on anybody, he has to be notified, but he did not think that harms them any. I agreed.

I told Mr. Haldeman I thought he may have received my letter that I sent him today and he said he had not seen it as yet. I told him there was in this Washington Post article (by Ken Clawson) yesterday the statement that we

told (Richard) Salant, President of CBS, that Schorr was being considered for a very important position and the White House asked us to expedite the investigation. I said I ran this down and found it is untrue as our Agent did not make the statement and we have a standing order that we are not to identify the source of the inquiry for a personnel investigation. I said we do not tell anyone, not even our Agents, that they are being considered, whether by Interior or the White House.

Mr. Haldeman said that now before the Bureau is asked to make a check, their responsibility is to notify the individual he is under consideration for the position and an investigation is being instituted. I said I thought it is wise because if we begin to make inquiries, someone tells the man anyway and there is nothing lost and you are not trying to hide anything. I said I thought it was a good statement.

Mr. Haldeman thanked me.

On November 12, 1971, Mr. Ronald L. Zeigler, Press Secretary to the President, telephoned me and stated there had just been a press meeting at the White House and that he understood that the UPI would carry a story to the effect that the President had said that the investigation of Daniel Schorr had been clumsily handled. Mr. Zeigler wanted to assure me that no such statement had been made by the President and the proposed story by the United Press would be inaccurate.

Mr. Zeigler did inform me that the President had stated that henceforth any person who is to be considered for an appointment requiring an investigation by the Bureau would be advised in advance that such an investigation would be made so that there could be no misunderstanding.

I thanked Mr. Zeigler for his call.

Special Agent in Charge Fletcher Thompson, Omaha, returned my earlier call to him. I told him the reason I called was that I was very much pleased with the letter he wrote me a week or ten days ago about his contacts around his district and what he, Thompson, had to say in regard to the criticism being directed against the Bureau. I told Mr. Thompson that on Friday I issued a letter to all Special Agents in Charge setting forth the various questions that may be asked by an audience or newspapermen and the answers that might be given and these followed the line that he had furnished me, but I wanted him to know what a fine job he did and I wanted to see the other Special Agents in Charge doing the same thing.

Mr. Thompson said he thought that was an opportunity they have although he did not know that everybody has a friendly audience as he has for the most part out there, but they are confused and want us to level with them. I said that is the only way, I think, that we can dispel the misinformation thrown them by these "jackals" and "scavengers" of the press. Mr. Thompson said we have nothing to apologize for as we are just doing our job and he intends to keep on telling them so. I said that is what I want done by all 59 offices and the letter makes suggestions as to the type of questions that might be asked and the answers that could be given and I wanted him, Thompson, to know this letter to the Special Agents in Charge was largely due to the fine letter he sent me. Mr. Thompson said this is so typical of me and he is grateful and pleased if he can have a small part in refuting the allegations against me and the Bureau. I told him that was nice of him. Mr. Thompson said he was on my side and he was extremely grateful to me for this call. I told him I wanted him to know because this letter will be reaching him in a few days and it is predicated upon what he has done in this field. Mr. Thompson said he was available to serve me in any way he can and that is his aim and his family feels the same. I expressed my appreciation.

Honorable John N. Irwin, II, Under Secretary of State, called. He said he was calling about the positions abroad (Legal Attaches) that I talked to the President about and the President authorized to be done, and Mr. Irwin said they, of course, want to work out how to do this. Mr. Irwin continued that after getting my letter in October they sent it to the embassies to get some comments back and they wanted to talk about these and how was the best way partly because of the situation overseas and a good part because of the recent Presidential order in connection with the new economic policy of reducing 5% overseas and this raises, from an internal point of view, problems as to how they take this and where and the amount of support they have to give overseas to the variety of agencies they support over and beyond themselves. Mr. Irwin said it would be helpful if they could talk about these with me or whomever I might designate. Mr. Irwin continued that he thought they had talked once and then the FBI officer said he would like to have it in writing rather than further discussion.

Mr. Irwin said he talked to Secretary of State William P. Rogers and Mr. Rogers thought it would be helpful if they could, rather than going back and forth in writing, try and work it out because they know this is what the President requested be done. I commented that the President is anxious. Mr. Irwin said they do want to try to fit it in with the miscellaneous political and administrative problems that exist rather than to just move without the opportunity for further discussion.

I told Mr. Irwin I thought Mr. Miller, Assistant Director in charge of the Domestic Intelligence Division and under whom the Legal Attaches operate, would be the one to talk to and if he, Mr. Irwin, would tell me what time was convenient for him, I could check with Mr. Miller. Mr. Irwin asked if they should call Mr. Miller direct and I told him I would call Mr. Miller and tell him that Mr. Irwin would be in touch with him. Mr. Irwin thanked me.

Chief Justice of the Supreme Court Warren Burger called. He said he had a problem, although not really a problem, but something he wanted to mention to me. He said I had been kind enough to have field examinations made for these Court Executives they clear through their Institute and they just sent, he thought, a dozen of them in. He said he did not want to ask for any earlier than normal treatment, but taking into consideration the Holidays that are forthcoming, he was wondering if at all possible if they could get them as soon after the first of the year as possible. He said he thought he would mention this to me knowing that the Holidays slow up many things, as the Chief Justices of the Circuits are riding him to furnish them a list of available men. I said I would get after it and give it an extra push.

The Chief Justice asked if I needed the list, and I said it would be helpful. He said he would have Rowland Kirk send the list to me. I suggested he mark it "personal" and the Chief Justice said he would have it down later this afternoon. I said I would get at it personally and see that we get it done by the first of the year.

MEMORANDUM FOR MR. TOLSON

Today I saw Special Agent John W. O'Rourke, a Supervisor in the Domestic Intelligence Division, who is under orders of transfer to Birmingham as Assistant Special Agent in Charge. Mr. O'Rourke

[REDACTED]

I discussed with Mr. O'Rourke generally the operations of a field office and the necessity for a firm but fair administration.

I noted that the Birmingham Office had no classification of cases exceeding 7% delinquency and this was good.

I noted that in October the Birmingham Office Agents had closed 6.7 cases per Agent while the field average was 8.5 and this should be increased.

I also noted that for the first four months of the current fiscal year when compared with the same period of the previous fiscal year, the Birmingham Office had increased its accomplishments in all four categories.

I commented on the fact that the Agents of the Birmingham Office in October spent 10.1% of their time in the office while the field average was 11.1%, which is good and which should be continued.

I stressed to Mr. O'Rourke the value of informant coverage in all fields of our work and the necessity for intensification of the development of top level informants.

[REDACTED]

I noted that the Agents in the Birmingham Office in October averaged 2 hours and 25 minutes per day overtime, and while this was excessive, I knew of no way to reduce it in view of the volume of work and the shortage of personnel. I stated I wanted to emphasize the fact that I did not want any unnecessary overtime and whatever overtime was performed must be equitably shared by all or fringe benefits should be rescinded in those cases wherein the Agents are not able to equitably share the overtime.

December 3, 1971

I noted that since January 1, 1971, the Birmingham Office has recruited 4 Special Agents and supplied 28 clerical employees. I stressed to Mr. O'Rourke that this program should be given continuous attention.

I discussed with Mr. O'Rourke the Criminal Intelligence Program noting that criminal activities in the area covered by the Birmingham Office consist primarily of gambling and the illegal manufacture and distribution of whiskey and gambling appears in the form of bookmaking on sports events and card and dice games in local private clubs. [REDACTED] 67d

[REDACTED] also noted that as of October 31, 1971, the Birmingham Office was conducting three investigations in the Anti-Racketeering category for criminal intelligence purposes and had 22 gambling cases under active investigation.

I spoke to Mr. O'Rourke about the fact that I noted the Birmingham Office has 14 bank robberies, 4 bank burglaries, and 1 bank larceny pending unsolved and every effort should be made to correct this.

Today I saw Special Agent in Charge Victor Turyn of the Baltimore Office, who is under orders of transfer as Special Agent in Charge at Newark. [REDACTED]

I noted that the Newark Office had a number of classifications of cases exceeding 7% delinquency and this should be corrected. b6

I noted that in October the Newark Office Agents had closed 7.7 cases per Agent while the field average was 8.5 cases per Agent and this should be increased.

I also noted that for the first four months of the current fiscal year when compared with the same period of the previous fiscal year, the Newark Office had dropped in the categories of fines, savings, and recoveries and automobiles recovered and this should be given attention.

I commented on the fact that the Agents of the Newark Office in October spent 11.4% of their time in the office while the field average was 11.1%. I noted further that the Security Agents spent 38.2% of their time in the office which is excessive.

I stressed to Mr. Turyn the value of informant coverage in all fields of our work and the necessity for intensification of the development of top level informants. [REDACTED] b7d

I noted that the Agents of the Newark Office in October averaged 2 hours and 32 minutes per day overtime, and while this was excessive, I knew of no way to reduce it in view of the volume of work and the shortage of personnel. I stated I wanted to emphasize the fact that I did not want any unnecessary overtime and whatever overtime was performed must be equitably shared by all or fringe benefits should be rescinded in those cases wherein the Agents are not able to equitably share the overtime.

Memorandum for Mr. Tolson

I noted that since January 1, 1971, the Newark Office has recruited 24 Special Agents and has 1 appointment outstanding and supplied 56 clerical employees. I stressed to Mr. Turyn that this program should be given continuous attention.

I discussed with Mr. Turyn the Criminal Intelligence Program, noting that at the end of October the Newark Office was investigating 159 cases with

I also noted the Newark Office had 350 office of origin gambling cases under investigation as of October 21, 1971 and during this fiscal year the office has recorded 8 convictions and during the last fiscal year they recorded 53 convictions and prosecution is currently pending regarding 251 individuals for violations of the Antigambling Statute. b7d

I spoke to Mr. Turyn about the fact that I noted the Newark Office has 57 bank robberies, 10 bank burglaries, and 1 bank larceny pending unsolved and every effort should be made to correct this.

RE: FIELD INSPECTORS' CONFERENCE  
JANUARY 5 - 6, 1972

A Field Inspectors' Conference has been scheduled for all Inspectors and Inspector's Aides for January 5 and 6, 1972, starting at 9:00 a.m., in Room 5231, Department of Justice Building. The objective of this conference will be to tighten and streamline inspection procedures and to exchange observations, suggestions and ideas of the various divisions and the Inspection Staff to further strengthen Bureau operations.

The first day of the conference, January 5, will be devoted to discussions by division heads and other representatives of each division of matters pertaining to inspections. The second day, January 6, will include an Inspectors' workshop, the purpose of which will be to analyze current inspection procedures directed at increasing their effectiveness with particular emphasis being placed on critical investigative responsibilities and streamlining techniques and methods to effect greater economy in the utilization of the Bureau's manpower and equipment.

Re: Field Inspectors' Conference  
January 5 - 6, 1972

You are requested to submit a memorandum to the Inspection Division by December 14, 1971, listing topics you feel should be included on the agenda of the conference, including the identities of the speakers who will present these topics and the amount of time desired for the presentation.

Whenever possible, division heads should personally attend this conference and present their respective topics. In the event the division head is unable to be present, a designated alternate should be prepared to handle the assignment.

MEMORANDUM FOR MR. TOLSON

Today I saw Special Agent Bill D. Williams, a Supervisor in the General Investigative Division, who is under orders of transfer to Omaha as Assistant Special Agent in Charge, [REDACTED]

I discussed with Mr. Williams generally the operations of a field office and the necessity for a firm but fair administration.

I noted that the Omaha Office had one classification of cases which exceeded 7% delinquency and that this was good.

I noted that in October the Omaha Office Agents had closed 9.4 cases per Agent while the field average was 8.5 and this was a healthy trend although I would like to see the average increased.

I also noted that for the first four months of the current fiscal year when compared with the same period of the previous fiscal year, the Omaha Office had dropped in automobiles recovered and this should be corrected.

I commented on the fact that the Agents of the Omaha Office in October spent 6.8% of their time in the office while the field average was 11.1%, which is good and which should be continued.

I stressed to Mr. Williams the value of informant coverage in all fields of our work [REDACTED] and the necessity for intensification of the development of top level informants.

I noted that the Agents of the Omaha Office in October averaged 2 hours and 23 minutes per day overtime and, while this was excessive, I knew of no way to reduce it in view of the volume of work and the shortage of personnel. I told the Attorney General I would not be volunteering anything; that it is always off the record and in closed session and it is not taken down stenographically. The Attorney General asked if it would be a part of the direct testimony or in answer to questions propounded, and I told him in answer to questions propounded; that I have done this every year as the committee always wants a full report on wire tapping and I have always given the total figure and the agencies of the Government for which we are conducting the wire tapping and the names of the cases are not given. The Attorney General said then it was nothing more to be concerned about than last year or the year before. I said it is exactly as I have done every year.

Boff 2-11-72

While talking to the Attorney General on another matter, I mentioned to him that Senator Sam J. Ervin, Jr., advised me this morning that he made a statement before the Committee that completely repudiated what the Washington Post carried about him the day before about passing a law to have the FBI limit its investigations. The Attorney General said he did not believe it at the time. I said the Senator had given me a copy of the statement, but I doubt the Post will print much of it.

I told the Attorney General that Senator Ervin was very much upset and said he at no time had any feeling the FBI had done anything wrong and he did not think of having any such legislation passed as it would prevent all investigations if you put any limitation on as the Post indicated he would. The Senator said he was very much upset and wanted to be certain he was not in any way critical of the Bureau.

The Attorney General said he is a fine individual and I agreed, but I thought his staff was bad as he has some eager beavers and I think they are the ones who put him up to doing some of the things that look bad. The Attorney General said that he likes to talk about the First Amendment and his bark is worse than his bite. I said I have had no trouble with him, but when I saw what the Post alleged he said, I made it a point to contact him to see what it was about and he showed me the statement he made the following morning, which is a fine statement and very commendatory and completely repudiates that he had any intention of such legislation. The Attorney General said that as he recalled, he was one of those who came out in strong support of me and the Bureau when Boggs and Muskie and some of them sounded off. I said he was as they tried to get him to initiate an investigation on the Senate side and he said he could not find anything to investigate and so far as he knew, the Bureau was being run satisfactorily. I said he has always been fine and sound in his dealings with us, so I wrote the letter down here and prepared a copy for

him, the Attorney General, and got it to the Senator promptly, after the White House made one or two minor changes, but I thought that took some of the steam out of it. I said the Senator did not know until he got the letter that we had advised (Daniel L. ) Schorr we were making the investigation, but we did that the very first thing as we went to him to get information and told him he was being investigated for a position but we could not tell him what position because we did not know. I said Senator Ervin did not know Schorr had been told and thought it was being done mysteriously. The Attorney General said that was the impression Schorr wanted to give. I said it was typical of him and the Columbia Broadcasting System. I said when we went to Stanton, he was the one who asked us to discontinue the investigation as Schorr did not want to leave and had no intention of leaving and did not know anything about a new position. I said the White House group was in San Clemente so I called out there and talked to Higby, an assistant to H. R. Haldeman, and Higby said to stop it and go no further. I said I put that in the letter without giving any identities but said a person authorized to request investigations. I said Ervin was satisfied and I doubt whether he will go much further. I said Schorr has had his say and gotten the publicity and I think that is all he was interested in doing. The Attorney General said he did not know where else they could go since the White House used executive privilege. I said Senator Ervin realized he was barking up the wrong tree, but I am happy we got the letter up so promptly and did not stall around because I was afraid the White House fellows might want to hold long discussions, but they cleared it and I shot it up to Ervin and sent a copy to him, the Attorney General.

Deputy Attorney General Richard Kleindienst called. He said that when they started their "great physical education program" in the wonderful FBI gym, he had all of the Assistant Attorneys General involved. He continued that as a result of attrition during the past year and the physical propensities of some of the men, the class dwindled, but those left want to continue. Mr. Kleindienst said it seemed to him that better use could be made of the facility if he had the Deputy Assistant Attorneys General included, for instance, Norman Carlson, who is head of the Bureau of Prisons, and he wondered if that would be all right, in order to fill the class up. I told him it would be.

Mr. Kleindienst said he talked to Mr. Gump and he had said it would be easy for a couple of men to share a locker and there would be no undue burden. Mr. Kleindienst asked if I would like a list of those who want to participate, and I told him I would and I could give this list to the man in the gym and he can check when they come in.

Mr. Kleindienst thanked me.

The Attorney General called. He said I may have caught up with this Jewish Defense League (JDL) problem up at the United Nations and the request that is going to be made by Honorable George Bush, the Ambassador to the United Nations, for some surveillance and as he, the Attorney General understands it, the only difference from the normal process is that the Secretary of State, who is in Europe, has suggested that Mr. Bush not run it through the normal State Department channels, so if I can see my way to cooperate with that request, they could take it in the usual way. I told the Attorney General we would take care of it and I would call New York right away.

9:38 AM

I called the New York Office and in the absence of Assistant Director Malone spoke to Special Agent in Charge Joseph E. Gamble. I told him the Attorney General had just talked to me and it seems the American Ambassador to the United Nations, George Bush, is very desirous of doing some surveillance of the Jewish Defense League and I did not know whether he, Gamble, was familiar with this or not. Mr. Gamble said he was. I continued that the Secretary of State, who is in Europe, suggested to the Ambassador that it not be done through the approval or with the knowledge of the State Department and that we go ahead and do whatever he wants us to do. I asked Mr. Gamble if he would handle this. Mr. Gamble said he would and asked if I wanted them to contact the Ambassador. I told Mr. Gamble to contact him and see what he wants and tell him we will be glad to do it and it would be between ourselves and his office and to make the necessary reports down here. Mr. Gamble said it would be done.

Very truly yours,

RE: 1972 ANNUAL LEAVE AND COMMITMENTS SCHEDULE --  
EXECUTIVES CONFERENCE

The 1972 leave year will extend from January 9, 1972, through January 6, 1973. Please submit your written requests for any annual leave of one day or more during the whole of the 1972 leave year by January 14, 1972, to the Administrative Division. All such annual leave you expect to take during that leave year must be listed and every effort should be made to avoid subsequent requests for leave not included in the schedule.

Your leave requests should also describe any prospective absences on official duty to fulfill outside commitments which have already been scheduled.

A schedule will then be prepared and submitted to me for approval. Any departure from the schedule after I have approved it will require a separate memorandum from the individual concerned, for the approval of Mr. Tolson and me.

MEMORANDUM FOR MR. TOLSON

Today I saw Special Agent in Charge Paul J. Mohr of the Phoenix Office. Mr. Mohr [REDACTED]

I discussed with Mr. Mohr generally the operations of a field office and the necessity for a firm but fair administration.

I noted that in November the Phoenix Office Agents had closed 14 cases per Agent while the field average was 9.4 cases per Agent and I would like to see this continued.

I also noted that for the first five months of the current fiscal year when compared with the same period of the previous fiscal year, the Phoenix Office had increased in the four major categories.

I commented on the fact that the Agents of the Phoenix Office in November spent 5.8% of their time in the office while the field average was 11.3%, and I would like to see this continued.

I stressed to Mr. Mohr the value of informant coverage in all fields of our work and the necessity for intensification of the development of top level informants.

I noted that the Agents of the Phoenix Office in November averaged 2 hours and 29 minutes per day overtime, and while this was excessive, I knew of no way to reduce it in view of the volume of work and the shortage of personnel. I stated I wanted to emphasize the fact that I did not want any unnecessary overtime and whatever overtime was performed must be equitably shared by all or fringe benefits should be rescinded in those cases wherein the Agents are not able to equitably share the overtime.

I noted that since July 1, 1972, the Phoenix Office has recruited 8 Special Agents and supplied 4 clerical employees. I stressed to Mr. Mohr that this program should be given continuous attention.

During the visit with me on January 5th of Mr. Bradshaw Mintener, an old friend and formerly an official under the Eisenhower Administration, he informed me that he never understood why it had not been publicized that Robert Kennedy, the late Attorney General, had failed in his courses at the Portsmouth Priory Prep School which he attended. He stated also that it was well known that Robert Kennedy had cheated while at that school and that his father then entered him at Choate, a private school, from which he later went to Harvard.

I had never heard before that Robert Kennedy had attended the Portsmouth Priory Prep School nor had I ever heard that he had been caught cheating while attending that school.

I discussed with Mr. Murphy generally the operations of a field office and the necessity for a firm but fair administration.

I noted that the Tampa Office had no classification of cases exceeding 7% delinquency and this should be continued.

I noted that in November, 1971, the Tampa Office Agents had closed 10.2 cases per Agent while the field average was 9.4 cases per Agent, and while this was good, it should be increased.

I also noted that for the first five months of the current fiscal year when compared with the same period of the previous fiscal year, the Tampa Office had increased each category and this should be continued.

I commented on the fact that the Agents of the Tampa Office in November spent 10.1% of their time in the office while the field average was 11.3%. I noted further that the Security Agents spent 18.3% of their time in the office which is excessive.

I discussed with Mr. Devic generally the operations of a field office and the necessity for a firm but fair administration.

I noted that the St. Louis Office had no classification of cases exceeding 7% delinquency and this should be continued.

I noted that in November, 1971, the St. Louis Office Agents had closed 19.6 cases per Agent while the field average was 9.4 cases per Agent, and this was a good average, although I noted that the Federal Records Center is located in St. Louis and the St. Louis Office makes the necessary record checks, thus causing the high average of cases closed.

I also noted that for the first five months of the current fiscal year when compared with the same period of the previous fiscal year, the St. Louis Office had dropped 11% in convictions; 85% in fines, savings, and recoveries; and 42% in automobiles recovered and this should be looked into.

I commented on the fact that the Agents of the St. Louis Office in November spent 6.5% of their time in the office while the field average was 11.3%, and this low percentage should be continued.

I stressed to Mr. Devic the value of informant coverage in all fields of our work and the necessity for intensification of the development of top level informants, [REDACTED]

I returned an earlier call from [REDACTED] and Mr. [REDACTED] said he was wondering if he could see me or someone I might designate. Mr. [REDACTED] said it has to do with a matter that he disliked discussing over the telephone and yet it is a matter that they pretty well have to make up their minds on how they are going to handle it. He said it ties in with the New York Times and the affidavit given by [REDACTED], one of our Agents at one time.

I told Mr. [REDACTED] I would be happy to see him personally or he could talk to the Assistant Director in charge of the Division that handles that matter, and I asked him what time would be convenient for him. Mr. [REDACTED] said he could come over at any time and, in fact, could come now. I suggested he come to my office on the fifth floor of the Department of Justice Building and gave him directions. I told him I would arrange to have the Assistant Director available to talk with him when he got here. Mr. [REDACTED] asked if he needed to know his name, and I told him it would be Mr. Felt, Deputy Associate Director. Mr. [REDACTED] said he would come right over. b7c

I called Mr. Felt, but in his absence spoke to Mr. Soyars. I told Mr. Soyars that I had just talked with [REDACTED] who wanted to see me or someone else and I had told Mr. [REDACTED] to come to my office and to see Mr. Felt. I asked when Mr. Felt would be back, and Mr. Soyars said in about 15 or 20 minutes. I told Mr. Soyars that if Mr. Felt is not back when Mr. [REDACTED] arrives for him, Soyars to see him. I said Mr. [REDACTED] wanted to discuss some affidavit made by one of our Agents in connection with the New York Times matter and needed guidance in particular as to how to handle it.

[REDACTED], called. He asked if he could bother me for a minute; that [REDACTED] lives in Chicago and has always had a fear of someone kidnaping someone in his family or his grandchildren. [REDACTED] said that this morning a maid let a man in; he went upstairs to where the wife was and tried to get her out of the house; he then came downstairs and hit the girl in the head with a pistol; the alarm went off and the police came in and also the FBI is there. [REDACTED] said the FBI man, because of the suspected kidnaping part of the story, is in on the case but is afraid to stay unless he gets support from Washington. I told [REDACTED] I would give it to him right away. [REDACTED] said [REDACTED] lives in [REDACTED] Illinois, just out of Chicago and gave his home phone number as: [REDACTED] (area code) [REDACTED] asked if I minded his calling me, and I told him I did not and I would call Chicago and tell them to get on with full speed. [REDACTED] thanked me.

I called Special Agent in Charge Roy Moore in Chicago and asked him if he were familiar with this business of kidnaping some of [REDACTED] family. Mr. Moore said he was. I told Mr. Moore that [REDACTED] is a good personal friend of mine of considerable prominence and wealth; that a mutual friend called me and said we have had an Agent at the home and the Agent was somewhat reluctant to go ahead with the matter unless he had authority from Washington to do so. I told Mr. Moore I thought we ought to move in with full speed and gave Mr. Moore the home telephone number of [REDACTED] and told Mr. Moore I would like to have him get in touch with [REDACTED] personally and tell him I had called and he, Moore, would assign Agents to it immediately. Mr. Moore said a teletype was coming in on the matter and asked if I had the circumstances and I told him I had them generally.

Mr. Moore asked if I was aware that they have identified the "bombadier," and I told him I was and that we were going to release a story from here. Mr. Moore said that two men in the Chicago Office had gotten from the post office the change of address which led to the Identification Division making the identification. I told him it was a fine piece of work and Mr. Moore thanked me and said he appreciated this very much as the boys had worked hard.

Honorable Herbert G. Klein, Director of Communications for the Executive Branch, The White House, called. He said he had kind of a small problem, but he wanted to call it to my attention. He said apparently there is a New York Times reporter, Bob Smith, who has asked to get a picture of a magazine we circulate within the Bureau and someone there said that he would not be able to take a picture.

I told Mr. Klein that he came in and we let him look at the Investigator, which is a magazine put out for the employees, and then he later came back and wanted a photographer to come in to photograph it. I told Mr. Klein we refused him for this reason: In the magazine there are pictures of Agents receiving awards, like a 30-year key, et cetera, and there are pictures of the families of Agents also, and we did not want those identities to be published in a newspaper. Mr. Klein asked if he did not want to do like the cover, or anything like that. I told him he did not; he wanted to take portions of the contents.

Mr. Klein said that what worried him is that it has a large circulation and if he got a copy from another employee, which would be fairly easy, they then might make it into a bigger thing. I told Mr. Klein I would doubt that any employee would give it to a newspaperman. I said it is an employees' publication and this fellow, Smith, every month writes me a letter asking for an interview and each month I turn it down because the New York Times is a rotten sheet. I said this fellow is particularly obnoxious; that he came in a week or ten days ago and wanted to see the Investigator and we allowed him to see it and he made notes and then he came back with a photographer and wanted to photograph contents of the December issue.

I told Mr. Klein that as I had said, it has many photographs of Agents and their families and it could imperil, for instance, the value of an Agent

working on an undercover case because his photograph may have appeared in the New York Times. I said it was the same way in regard to members of Agents' families, their wives and children, who are often in pictures. I said that when I present service keys, the man will often bring his wife and children in with him and a picture is taken and a copy given to the Agent and it then appears in the Investigator. I said this fellow did not indicate what particular thing he wanted to photograph, but he has also been making an issue of our expanding our Legal Attaches abroad, which story the State Department leaked. I said there was a very nasty story, which, of course, is characteristic of the New York Times. I told Mr. Klein that in the December issue, there is a story about the Legal Attaches and their assignment to some of the new offices opened abroad, such as in the Far East, Manila, Singapore, et cetera. I told Mr. Klein our principal objection is that we don't allow Agents to be photographed by the press even on a case, such as last night in New York where a hijacker was killed. I said we are doing everything we can to prevent that Agent's photograph from being published in the paper because some friend of the hijacker may decide to get revenge and harass the Agent or his family. I said the same thing is true if we allowed a Bureau publication containing pictures of employees to be published in a paper as there could be harassment, particularly since it is wanted by the New York Times.

Mr. Klein said that as he had said, his only concern is that it does not develop into something that is bigger than it is, and if they photograph the cover or something like that, would there be any objection. I told him there would not, but we would not want to allow them to photograph the contents of the publication. Mr. Klein said he has not talked to them, but just had a note that they had called in about it so let him do that. I told Mr. Klein this fellow threatened to bring suit under the freedom of information act, and Mr. Klein said he probably could do that. I told Mr. Klein I did not think so since we allowed him to examine the magazine and the reasons I have given for not allowing him to photograph it. Mr. Klein said he understood. Mr. Klein said to let him talk to them and I told him to let me hear from him.

Today I saw Special Agent in Charge Arnold C. Larson, who recently reported to the Oklahoma City Office. [REDACTED]

I discussed with Mr. Larson generally the operations of a field office and the necessity for a firm but fair administration.

I noted that the Oklahoma City Office had no classification of cases exceeding 7% delinquency and this should be continued.

I noted that in December, 1971, the Oklahoma City Office Agents had closed 13 cases per Agent while the field average was 9 cases per Agent, and this was a good average.

I also noted that for the first six months of the current fiscal year when compared with the same period of the previous fiscal year, the Oklahoma City Office had increased its accomplishments in the four categories.

I commented on the fact that the Agents of the Oklahoma City Office in December spent 5.4% of their time in the office while the field average was 11.8%, and this low percentage should be continued.

I stressed to Mr. Larson the value of informant coverage in all fields of our work and the necessity for intensification of the development of top level informants. [REDACTED]

I noted that the Agents of the Oklahoma City Office in December averaged two hours and twenty-nine minutes per day overtime, and while this was excessive, I know of no way to reduce it in view of the volume of work and the shortage of personnel. I stated I wanted to emphasize the fact that I did not want any unnecessary overtime and whatever overtime was performed must be equitably shared by all or fringe benefits should be rescinded in those cases wherein the Agents are not able to equitably share the overtime.

I noted that since July 1, 1971, the Oklahoma City Office had recruited one Special Agent and recruited one whose appointment is outstanding, and supplied 18 clerical employees. I stressed to Mr. Larson that this program should be given continuous attention.

I discussed with Mr. Larson the Criminal Intelligence Program, noting that although there is gambling and other types of illegal activities operating within the territory. [REDACTED]

b7D I noted in the antigambling-type cases, Oklahoma City has reported 19 convictions and has 8 subjects pending prosecution. I also noted that at the present time, the Oklahoma City Office is utilizing [REDACTED] and I stressed that the office should maintain a continuous, well-planned, and aggressive Criminal Intelligence Program.

I spoke to Mr. Larson about the fact that I noted the Oklahoma City Office has 3 bank robberies, 7 bank burglaries, and 1 bank larceny pending unsolved and every effort should be made to correct this.

Senator Lawton M. Chiles, Jr. (D.-Fla.) called. He said one of his very good friends, [REDACTED] in Jacksonville had contacted him in regard to a request he made to Senator Chiles and he, Chiles, was forwarding it to me. He said he did not know our policy but [REDACTED] who is with the Bureau in the Fugitive Division in New York, has a couple of children and [REDACTED] is anxious to try and get him back to Florida as they want to raise their children there. Senator Chiles said he forwarded this on the basis of carrying out the request from a close friend; that they are anxious to get them to Miami or some place in Florida.

I told the Senator I would look into it personally. I told him I know we have a policy of seniority in regard to transfers and I do not know how long this man has been in the service nor his position on the list of offices of preference. I told the Senator we ask every Agent to list his offices of preference where he would like to serve and they move on their seniority on the list. I said if the man has been in for a considerable period of time, he might be near the top to go to Miami, Jacksonville, or Tampa, but I would look into it and let the Senator know what I can do. Senator Chiles said he would appreciate this.

Mr. James Adams, in Mr. Mohr's absence, was advised of the above and that the Director wanted Mr. Mohr to handle this.

Long-standing Bureau policy is that when we order the field to conduct investigations requested by the Department in certain types of cases each individual being interviewed by our agents is to be informed that the investigation is being conducted at the specific request of a named Assistant Attorney General of the Department. Examples are Civil Rights investigations requested by the Civil Rights Division; Election Laws violations requested by the Criminal Division; and certain sensitive investigations, such as the Ellsberg case, requested by the Internal Security Division.

Make sure that instructions to this effect are included in communications to the field ordering such investigations. Similarly, when inquiries are received here at the Seat of Government concerning such investigations, correspondents should be advised that the particular investigation was specifically requested by a named Assistant Attorney General.

MEMORANDUM FOR MR. TOLSON

b6 Today I saw Special Agent William F. Beane, a Supervisor in the General Investigative Division, who has been ordered to Houston as Assistant Special Agent in Charge. [REDACTED]

I discussed with Mr. Beane the operations of a field office and the necessity for a firm but fair administration.

I noted that the Houston Office had no classification of cases exceeding 7% delinquency and this should be continued.

I noted that in December, 1971, the Houston Office Agents had closed 9.6 cases per Agent while the field average was 9 cases per Agent, and I would like to see this continued and increased.

I also noted that for the first six months of the current fiscal year when compared with the same period of the previous fiscal year, the Houston Office had increased its accomplishments in all categories except Convictions, and this had dropped 28%, and I would like to have this looked into.

I commented on the fact that the Agents of the Houston Office in December spent 6.6% of their time in the office while the field average was 11.8%, and this low percentage should be continued. I also noted that the Security Agents were spending 11% of their time in the office and this should be reduced.

I stressed to Mr. Beane the value of informant coverage in all fields of our work and the necessity for intensification of the development of top level informants.

I noted that the Agents of the Houston Office in December averaged 2 hours and 39 minutes per day overtime, and while this was excessive, I know of no way to reduce it in view of the volume of work and the shortage of personnel. I stated I wanted to emphasize the fact that I did not want any unnecessary overtime and whatever overtime was performed must be equitably shared by all or fringe benefits should be rescinded in those cases wherein the Agents are not able to equitably share the overtime.

I noted further that although no statistical accomplishments have been accrued this fiscal year to date, in connection with our Organized Crime Intensification Program, Houston contemplates arresting 14 subjects in the illegal gambling business investigation involving [REDACTED] and others.

b7C I spoke to Mr. Beane about the fact that I noted the Houston Office at the present time has 26 bank robberies, 1 bank burglary, and 1 bank larceny pending unsolved and every effort should be made to correct this.

RE: BUDGET ESTIMATES  
FISCAL YEARS 1974 THROUGH 1978

It is requested that each division head furnish to the Administrative Division by February 22, 1972, justification data (original and one copy) regarding his division for use in preparation of the Bureau's budget estimate for the fiscal year 1974 plus specific indication of any possible changes by fiscal years thereafter through fiscal year 1978. This latter information should specifically pinpoint the fiscal year involved. The 5-year projection of costs is required by instructions of the Office of Management and Budget. It is imperative that this material be in the hands of the Administrative Division by the February 22, 1972, deadline.

The material submitted by the divisions is the basic material used to determine and justify our appropriation request. Accordingly, the material should be concise and contain any data relating to your division which you feel would be of value in determining and presenting our budget request. This would include such things as work load trends, effect of any newly enacted legislation on our work, major issues or programs which may affect future manpower needs, and the like. Do not include any estimates for legislation still pending before Congress. Include work load statistics to support your justifications projected by fiscal years through 1978.

Enclosure

Memorandum to All Assistant Directors  
RE: Budget Estimates  
Fiscal Years 1974 through 1978

For the information of those contacting other agencies in regard to fingerprint and name check estimates, you should be aware of the volume of work along this line an agency is submitting to the Bureau at the present time, as well as the agency estimate to the Bureau for the fiscal year 1973. In addition to obtaining an estimate for the fiscal years 1974 through 1978, the estimate for the fiscal year 1973 should be checked with the agency to determine if it should be revised in light of current work load trends. If the agency estimates that the volume of such work for the fiscal years 1973 and 1974 and for subsequent fiscal years will increase or decrease from the present volume, obtain the details as to the reason for the increase or decrease so that we will have complete information available to fully justify our total name check and fingerprint work loads. This is needed since the anticipated volume of such work to be handled by the Bureau is primarily determined by estimates submitted by agencies outside the Bureau.

Using a tabulation in the format attached, show the number of your presently assigned staff (giving date of the count) by sections (except that the Administrative Division and the Files and Communications Division should show number by sections and units) and the number of employees you feel will be necessary to handle the work of such organizational units during the fiscal year 1973 and subsequent fiscal years through 1978, broken down as to clerical and agent positions in both instances. Show the reason for any proposed increase. If reimbursable work is performed, all information on personnel should indicate the number of employees assigned or required for such work included in the total personnel figures as a one-line entry at the bottom. Major equipment needs, if any, should be set out specifically by sections (except that the Administrative Division and the Files and Communications Division should show needs by sections and units) and must be fully and completely justified. In addition, any alterations or repairs of office space or furniture contemplated should be indicated in the same manner as for equipment with full and complete justification.

From the latest available information, it appears that a portion of the new quarters at Quantico could be ready for occupancy during the latter part of fiscal year 1972. With respect to the new FBI building, the General Services Administration has not given an estimated occupancy date, but for

Memorandum to All Assistant Directors

Fiscal Years 1974 through 1978

purposes of making your projected estimates, assume that occupancy will be in the fiscal year 1975. Your projections should show by each fiscal year what effect these moves will have on work loads, personnel, and major equipment items supported by a full and complete explanation.

Should any question arise with regard to the preparation of these data, contact should be made with the Budget Unit of the Administrative Division.

Very truly yours,

  
John Edgar Hoover  
Director

If reimbursement work is performed by personnel assigned or anticipated, show on a line at the bottom the total of such personnel.

Any increases over currently authorized should be justified in narrative material. By currently authorized is meant the number recommended and approved in the last "personnel adequacy survey" by the Inspection Division or through other means. The term "currently authorized" has nothing to do with prior year budget requests.

W38

While talking to the Attorney General on another matter, I mentioned that another thing pending is the suit which the New York Times wants to bring in regard to The Investigator. I said a fellow named Smith has been the one harassing us and wanted to take pictures of the entire Investigator and I took the position I did not want pictures taken of our personnel. I said there are Agents receiving awards and keys, et cetera and they could be subject to harassment like the Agent who killed the hijacker last week. I said he received a \$500 award and his picture will be in the next Investigator and he or his family could be harassed.

I told the Attorney General a wire came in yesterday in which they say they want to photograph the article on Spain in the issue. I said that in each issue we have a special article on a particular district and we had the Legal Attache in Madrid write an article on Spain and its culture and it was printed.

I said I would be inclined if they press it, and they indicated if they did not hear within 24 hours they would bring suit, to have no objection to that portion being photographed, but what I don't want is to have any pictures of our employees photographed as many, like in criminal work in the drive on gamblers, are working undercover and you put a man's picture on the front page or inside page of the New York Times, he is practically useless thereafter.

The Attorney General said he told John W. Hushen, Director of the Office of Public Information, to tell my people that regardless of the legal implications, they are willing to go ahead and do what I want to do. I said I am inclined since they have now indicated they only want that portion on Spain to allow that to be done as there is nothing confidential about that and we would not have any basis upon which we could justify withholding it.

I said they also sent a wire to Herb Klein at the White House. I said he called the other day and I told him they would not tell us what part they wanted to photograph; that I would have no objection if they wanted to photograph the cover, but I did not want pictures of our employees to be circulated around and broadcast in the newspapers. I said that is an invasion of privacy and they always talk about invasion of privacy, and if that isn't, I don't know what would be, because the Agent in the hijacking, the first one last August, I believe it was, who killed the hijacker has been harassed by mysterious phone calls and we have had to have Agents guard his house at night. I said the last word we had is that they merely want to do that portion on Spain, but I want to control it and if they want to photograph it, they have to come in here as I don't intend to send a copy to them.

The Attorney General told me to handle it any way I want and if we get into legal problems, we will face that when they arrive.

I discussed with Mr. Kitchens generally the operations of a field office and the necessity for a firm but fair administration.

I noted that the Louisville Office had one classification of cases with a delinquency of 7% and that I would like to have all classifications of cases less than 7% delinquent.

I noted that in December, 1971, the Louisville Office Agents had closed 13.2 cases per Agent while the field average was 9 cases per Agent, and I would like to see this continued.

I also noted that for the first six months of the current fiscal year when compared with the same period of the previous fiscal year, the Louisville Office had increased its accomplishments in all categories except convictions, which dropped 4%, and fines, savings, and recoveries, which dropped 57%, and I would like to have this looked into.

I commented on the fact that the Agents of the Louisville Office in December spent 3.6% of their time in the office while the field average was 11.8%, and this low percentage should be continued.

I stressed to Mr. Kitchens the value of informant coverage in all fields of our work and the necessity for intensification of the development of top level informants.

MEMORANDUM FOR MR. TOLSON

66 Today I saw Inspector James O. Newpher of the Inspection Division, who is under orders of transfer as Special Agent in Charge at Denver. [REDACTED]

I discussed with Mr. Newpher generally the operations of a field office and the necessity for a firm but fair administration.

I noted the Denver Office had one classification of cases with a delinquency of over 7% and that I would like to have all classifications of cases less than 7% delinquent.

I noted that in January, 1972, the Denver Office Agents had closed 11.6 cases per Agent while the field average was 9.6 cases per Agent, and I would like to see this continued.

I also noted that for the first seven months of the current fiscal year when compared with the same period of the previous fiscal year, the Denver Office had increased its accomplishments in all categories.

I commented on the fact that the Agents of the Denver Office in December, 1971, spent 5.1% of their time in the office while the field average was 11.8%, and I would like to see this continued.

I stressed to Mr. Newpher the value of informant coverage in all fields of our work and the necessity for intensification of the development of top level informants.

I noted that the Agents of the Denver Office in December, 1971, averaged 2 hours and 27 minutes per day overtime, and while this was excessive, I know of no way to reduce it in view of the volume of work and the shortage of personnel. I stated I wanted to emphasize the fact that I did not want any unnecessary overtime and whatever overtime was performed must be equitably shared by all or fringe benefits should be rescinded in those cases wherein the Agents are not able to equitably share the overtime.

February 15, 1972

I noted that since July 1, 1971, the Denver Office has not recruited any Special Agents and has no appointments outstanding and has supplied 18 clerical employees. I stressed to Mr. Newpher that this program should be given continuous attention.

I discussed with Mr. Newpher the Criminal Intelligence Program and noted that investigation has revealed that

[REDACTED]

b7c  
b7D

I noted that Denver currently has 10 individuals under indictment, including [REDACTED] for violation of the Extortionate Credit Transactions statute and to date this fiscal year the Division has obtained 4 convictions of organized crime figures. b7c

I spoke to Mr. Newpher about the fact that I noted the Denver Office at the present time has 14 bank robberies, 7 bank burglaries, and 3 bank larcenies pending unsolved and every effort should be made to correct this situation.

MEMORANDUM FOR MR. TOLSON

Today I saw Special Agent Alfred L. Anderson of the Crime Records Division, who is under orders of transfer to Anchorage as Assistant Special Agent in Charge. Mr. Anderson makes an excellent, above-average, mature, and substantial personal appearance.

I discussed with Mr. Anderson generally the operations of a field office and the necessity for a firm but fair administration.

I noted the Anchorage Office had no classification of cases with a delinquency of over 7% and I would like to see this continued.

I noted that in January, 1972, the Anchorage Office Agents had closed 7.6 cases per Agent while the field average was 9.6 cases per Agent, and I would like to see an improvement in this average.

I also noted that for the first seven months of the current fiscal year when compared with the same period of the previous fiscal year, the Anchorage Office had increased its accomplishments in all categories.

I commented on the fact that the Agents of the Anchorage Office in December, 1971, spent 6.9% of their time in the office while the field average was 11.8%, and I would like to see this continued. I further noted that the Resident Agents were spending 14.9% of their time in the office and this was excessive and should be reduced.

I stressed to Mr. Anderson the value of informant coverage in all fields of our work and the necessity for intensification of the development of top level informants.

I noted that the Agents of the Anchorage Office in December, 1971, averaged 2 hours and 27 minutes per day overtime, and while this was excessive, I know of no way to reduce it in view of the volume of work and the shortage of personnel. Memorandum for Mr. Tolson

February 16, 1972

I noted that since July 1, 1971, the Anchorage Office has not recruited any Special Agents or clerical employees, and although that office has no recruiting quota, I stressed to Mr. Anderson that this program should be given continuous attention.

I discussed with Mr. Anderson the Criminal Intelligence Program and noted that investigation has disclosed no evidence of organized crime activities or the presence of any hoodlums of substantial stature in the Anchorage Division. I noted further that no members of La Cosa Nostra have been identified in the territory and no information has been received indicating that any members of this group are operating in the area. I noted that Anchorage has had 21 convictions since the passage of the Federal antigambling statutes and 12 individuals at this time are awaiting further prosecutive action.

I spoke to Mr. Anderson about the fact that I noted the Anchorage Office at the present time has no violations of the bank robbery statute pending unsolved and I would like to see this continued.

Acting Attorney General Richard Kleindienst called. He asked if I had had the occasion to read the Life article, and I told him I had not and asked what it is about as I heard on television that it was going to give an expose of hanky-panky at San Diego. Mr. Kleindienst said that in one portion I am mentioned as calling the White House to intervene and urge them to continue prosecution of the Alessio case. Mr. Kleindienst said it is so full of fabrications, he wondered if I could not get somebody to get a copy of Life and read it and then to the extent that it is untrue, if I would contemplate the issuance of a personal statement that the statements are untrue.

b7C I told Mr. Kleindienst I could say I have never called the White House from La Jolla since I have been going out there starting in about 1938; that if I called on any matter of that kind, I would have called the Bureau to press the case or to see that the case is not delayed, as I know the [REDACTED] as they were in all kinds of skulduggery in California and were tied in close to [REDACTED] (phonetic), [REDACTED] out there and whom I have never met.

I told Mr. Kleindienst I would have the article analyzed and I can emphatically say it is not true. Mr. Kleindienst said to read it and then to the extent it is untrue, he thought it would be helpful for me today to issue a personal statement that it is not.

Under date of March 8, 1972, I received the attached letter from [REDACTED]

I am also attaching a memorandum of a conversation which my office had with [REDACTED] referred to in [REDACTED] correspondence and who was in Washington today, and when it was suggested to him that he talk to Mr. Bishop, he stated that he had no desire to do so and left the message for me that the papers would be ready in a few days.

66 The papers referred to, I was advised by [REDACTED] in a telephone conversation last week, were the various memoranda and reports prepared by the late J. B. Matthews, who, upon his death, left all of his investigatory material to his wife. [REDACTED] said this dealt with a great deal of anti-communist matters and he thought it was too valuable to be left in the hands of an individual. [REDACTED]

[REDACTED] had then turned the papers over to the Freedoms Foundation. [REDACTED]

I think it would be well for someone from FBI headquarters familiar with the subject to look over these papers at the Freedoms Foundation when we next hear from [REDACTED]. There may be some valuable material therein which we could benefit from and I would like to know exactly in what manner they are being maintained at the Freedoms Foundation. I understood from [REDACTED] that they were to be placed in the J. Edgar Hoover Library, which is a building at the Freedoms Foundation at Valley Forge.

MEMORANDUM FOR MR. TOLSON

b6 Today I saw Special Agent J. Gerard Hogan of the Administrative Division, who is under orders of transfer to Albany as Assistant Special Agent in Charge. [REDACTED]

I discussed with Mr. Hogan generally the operations of a field office and the necessity for a firm but fair administration.

I noted that the Albany Office had one classification of cases with a delinquency of over 7% and that I would like to see all classifications of cases less than 7% delinquent.

I noted that in December, 1971, the Agents in the Albany Office had closed 18.4 cases per Agent, in January, 1972, 16.1 cases per Agent, and in February, 1972, 14.1 cases per Agent, and while this was greater than the field average in February of 9.9 cases per Agent, I noted the average was dropping and I would like to see the average increased if possible.

I also noted that for the first eight months of the current fiscal year when compared with the same period of the previous fiscal year, the Albany Office had increased its accomplishments in all categories except fines, savings, and recoveries, which was down 53% and this should be looked into.

I commented on the fact that the Agents of the Albany Office in February, 1972, spent 11.5% of their time in the office, which was the same as the field average, and I would like to see an improvement in this, particularly the Security Squad which spent 23.3% of their time in the office in February.

I stressed to Mr. Hogan the value of informant coverage in all fields of our work and the necessity for intensification of the development of top level informants.

I noted that the Agents of the Albany Office in February, 1972, averaged 2 hours and 20 minutes per day overtime, and while this was excessive,

I know of no way to reduce it in view of the volume of work and the shortage of personnel. I stated I wanted to emphasize the fact that I did not want any unnecessary overtime and whatever overtime was performed must be equitably shared by all or fringe benefits should be rescinded in those cases wherein the Agents are not able to equitably share the overtime.

I noted that since July 1, 1971, the Albany Office has recruited 4 Special Agents and has 3 appointments outstanding and has supplied 30 clerical employees. I stressed to Mr. Hogan that this program should be given continuous attention.

I discussed with Mr. Hogan the Criminal Intelligence Program and noted that the Albany Office presently has

I also noted that during fiscal year 1971 the Albany Office obtained one conviction under the organized crime statutes and presently has 27 subjects awaiting prosecution.

I spoke to Mr. Hogan about the fact that I noted the Albany Office at the present time has 11 bank robberies, 3 bank burglaries, and 1 bank larceny pending unsolved and every effort should be made to correct this situation.

I discussed with Mr. McCarthy generally the operations of a field office and the necessity for a firm but fair administration. *Ad. 4-1-72*

I noted that the Butte Office had no classification of cases with a delinquency of over 7% and that I would like to see this continued.

I noted that in February the Agents of the Butte Office had closed 12 cases per Agent while the field average was 9.9 cases per Agent, and I would like to see the office maintain its average or even better it.

I also noted that for the first eight months of the current fiscal year when compared with the same period of the previous fiscal year, the Butte Office had increased its accomplishments in all categories except convictions, which was down 17% and this should be looked into.

I commented on the fact that the Agents of the Butte Office in February, 1972, spent 5.8% of their time in the office, while the field average was 11.5%, and this was healthy and I would like to see it continued.

I stressed to Mr. McCarthy the value of informant coverage in all fields of our work and the necessity for intensification of the development of top level informants.

I noted that the Agents of the Butte Office in February, 1972, averaged 2 hours and 26 minutes per day overtime, and while this was excessive, I know of no way to reduce this in view of the volume of work and the shortage of personnel. Today I saw Inspector Richard H. Ash of the Inspection Division, who has been ordered to Buffalo as Special Agent in Charge. [REDACTED]

I discussed with him generally the operations of a field office and the necessity for a firm but fair administration.

I noted that the Buffalo Office had an office delinquency of 4.3% and three classifications of cases with a delinquency of over 7% and I would like to see this corrected so that there is no classification of cases over 7% delinquent.

I noted that in February the Agents of the Buffalo Office had closed only 8.9 cases per Agent while the field average was 9.9 cases and I would like to see this average increased.

I also noted that for the first eight months of the current fiscal year when compared with the same period of the previous fiscal year, the Buffalo Office had dropped 11% in convictions and 28% in fines, savings, and recoveries, and this should be looked into.

I commented on the fact that the Agents of the Buffalo Office in February spent 7.4% of their time in the office, while the field average was 11.5%, and I would like to see this low percentage continued, although the Security Agents were spending 14% of their time in the office and this could be lowered.

I stressed to Mr. Ash the value of informant coverage in all fields of our work and the necessity for intensification of the development of top level informants.

I noted that the Agents of the Buffalo Office in February, 1972, averaged 2 hours and 29 minutes per day overtime, and while this was excessive, I know of no way to reduce it in view of the volume of work and the shortage

I discussed with him generally the operations of a field office and the necessity for a firm but fair administration. J. O. ...

I noted that the Norfolk Office had one classification of cases over 7% delinquent and I would like to see the delinquency held to below 7%.

I noted that in March the Agents of the Norfolk Office closed 15 cases per Agent while the field average in February was 9.9 cases per Agent, and I would like to see this average continued.

I also noted that for the first nine months of the current fiscal year when compared with the same period of the previous fiscal year, the Norfolk Office had dropped 6% in convictions and 5% in fugitives located, and this should be looked into.

I commented on the fact that the Agents of the Norfolk Office in February spent 9.9% of their time in the office, while the field average was 11.5%, and I would like to see this low percentage continued, although the Security Agents were spending 13.6% of their time in the office, the Accounting Agents 10.9% and the Resident Agents 17.1% and all of these are excessive and should be reduced.

I stressed to Mr. Sheridan the value of informant coverage in all fields of our work and the necessity for intensification of the development of top level informants.

I noted that the Agents of the Norfolk Office in February, 1972, averaged 2 hours and 23 minutes per day overtime, and I would like to see it reduced to 2 hours per day. I stated I wanted to emphasize the fact that

In the recent past a considerable increase has been noted in correspondence to the Bureau in response to correspondence from the Bureau bearing the character "Miscellaneous - Information Concerning" and other non-specific characterizations. In such instances, routing of the mail is most difficult and usually results in considerable delay in getting the mail to the appropriate Division.

The Manual for Bureau Supervisors, Section 16 (11), page 5a, sets forth instructions that the character of such correspondence emanating from the Bureau should parenthetically show the Seat of Government origin, such as "John Doe, Miscellaneous - Information Concerning, (Crime Research Section)."

It is requested that you bring these instructions to the attention of the personnel in your Division engaged in the preparation of outgoing correspondence in order to alleviate the delays encountered in handling replies to the Bureau.

Today, upon my return to Washington, there were ready for me to sign letters to the President of TWA, the Federal Aviation Administration, and the Airline Pilots Association relative to the outrageous action of a Captain of a TWA plane at Chicago in compelling two of our Agents to leave the plane unless they surrendered their guns.

b6 I had to rewrite the letter to TWA because of the rather "mouse-like" contents of the same. I want any correspondence with TWA to be curt and to the point. The original letter drafted for my signature did not emphasize the angry and incensed actions of the Captain of the TWA plane at Chicago. In fact, it made no mention of the same. I had to change the salutation in that it was addressed to "Dear [redacted]" and closed with "Sincerely yours." I want all correspondence going to TWA to be addressed either "Sir" or "Dear Sir" and closed "Very truly yours."

I had to add to the letter a concluding sentence in which I demanded that TWA instruct their pilots to comply with the regulations of the Federal Aviation Administration, which was approached rather "lamblike" in the original letter.

b6 We have been treated most shabbily by TWA ever since the instance with [redacted] and I see no reason why we should not be aggressively pertinent when we are communicating with that organization.
